### **CropLogic Managing Director resigns, Board appoints acting CEO**

CropLogic Limited (ASX:CLI) wishes to announce that Mr. Jamie Cairns has tendered his resignation as Managing Director of the Company and that this has been accepted by the Board.

During the time that Mr. Cairns was Managing Director the company achieved a milestone acquisition in the US and a capital raising pursuant to the listing of the company on the ASX.

The Board have appointed Mr James Cooper-Jones, CropLogic's Chief Financial Officer and Company Secretary, as acting Chief Executive Officer.

## About CropLogic

CropLogic is an award winning New Zealand agronomy services company listed on the Australian Securities Exchange (ASX) and currently servicing approximately 60,000 acres or 30% of the potato market in Washington State, USA.

CropLogic offers large scale crop growers agronomic expertise based upon scientific research and delivered with cutting edge technology – science, agronomy and technology interwoven into an expert system for decision support.

CropLogic builds upon 30 years of scientific research by The New Zealand Institute of Plant and Food Research, an internationally-recognised Crown Research Institute. The CropLogic analytical platform gathers crop data via in-field sensors coupled with satellite communications, before processing this with proprietary scientific models to predict outcomes and optimise field productivity. Skilled agronomists help present this information to the grower and assist them in their critical decision-making process.

The CropLogic system has been developed with the benefit of over 500 field trials throughout Australia, China, New Zealand, and the United States of America. In 2017 the system was commercially launched into Washington State, USA.
