

Expression of Interest

Package 4: Pipeline Construction

Kalium Lakes Limited are requesting expression of interest to be involved as part of the construction of a 79.3 km DN100 x 4.8 mm steel gas pipeline located approximately 160 km south east of Newman, Western Australia. Details of the project can be found in <http://www.kaliumlakes.com.au/beyondie-potash-project>

The scope of the package for **pipeline construction** is to include:

- Pipeline and construction right of way survey, including as built survey of installed pipeline;
- Construction right of way grading and filling in preparation for works;
- Trench re-excavation, including preparation / bedding of trench to accept the pipeline;
- Line pipe transportation from local stockpile, string, bending, welding, non destructive testing, field joint coating;
- Pipeline lowering in;
- Supply and installation of conduit and associated pits for future fibre optic cable;
- Pipeline trench backfill including shading with conditioned fill, backfill with trench spoil and compaction;
- Pipeline cathodic protection, including installation of test points and temporary anodes, including associated cabling;
- Pipeline cleaning, gauging, hydrostatic testing, dewatering, drying and inerting;
- Right of way rehabilitation, including placement of existing top soil and vegetation;
- Installation of pipeline warning marker signs.

Works will need be completed to Company specification and safety requirements and conditions set out by the pipeline license.

The Company plans to issue a formal request for pricing during the week commencing 17 December, with closure of submissions scheduled for early 2019. To be considered for invitation to provide a proposal on this package, please advise your expression of interest by providing the following information:

1. Company name, company ABN, contact person's name, email and phone number;
2. Proposed methodology of completing the works;
3. Capability statement, including equipment to be used (currently in possession or needs to be procured/hired), direct labour, subcontractors;
4. Previous similar experience;
5. Current accreditations including the Work, Health and Safety (WHS) accreditation;
6. Company's current indigenous relationships and proposed involvement in the contract execution;
7. Company's financial statement.
