

Expression of Interest

Package 5: Pipeline Inlet and Delivery Station Fabrication and Construction

Kalium Lakes Limited are requesting expression of interest to be involved as part of the construction of a 79.3 km DN100 x 4.8 mm steel gas pipeline located approximately 160 km south east of Newman, Western Australia. Details of the project can be found in <http://www.kaliumlakes.com.au/beyondie-potash-project>

The scope of the package for **pipeline inlet and delivery station construction** is to include:

- Survey, including as built survey;
- Foundations, fencing and road works;
- Fabrication, testing and installation of skidded equipment;
- Supply, fabrication, non destructive testing, hydrostatic testing, surface treatment and installation of interconnecting piping. Leak testing of full piping system;
- Electrical and instrumentation, including underground cabling and earthing;
- SCADA installation and commissioning;
- Commissioning assistance;
- Long lead items will be supplied by Others.

Works will need be completed to Company specification and safety requirements and conditions set out by the pipeline license.

The Company plans to issue a formal request for pricing during the week commencing 17 December, with closure of submissions scheduled for early 2019. To be considered for invitation to provide a proposal on this package, please advise your expression of interest by providing the following information:

1. Company name, company ABN, contact person's name, email and phone number;
2. Proposed methodology of completing the works;
3. Capability statement, including equipment to be used (currently in possession or needs to be procured/hired), direct labour, subcontractors;
4. Previous similar experience;
5. Current accreditations including the Work, Health and Safety (WHS) accreditation;
6. Company's current indigenous relationships and proposed involvement in the contract execution;
7. Company's financial statement.
